Fukuda Denshi present the latest DYNASCOPE

Critical care demands clear accurate instant information. Information as you need to see it. Once more Fukuda Denshi innovate to deliver.

Our most intelligent user interface, this is high end patient monitoring with such flexibility in customisation it may just be the most powerful, clear and simple patient monitor you have ever used.

Fukuda Denshi present the latest DYNASCOPE patient monitor, the DS-8500.

Total control of all elements of your monitor display and patient condition notifications.

Configure sound, colour and display to suit every situation and environment. A multitude of configurations gives unprecedented control to precisely tailor the DS-8500 to your requirements and the requirements of your patient care team.

Innovative Design

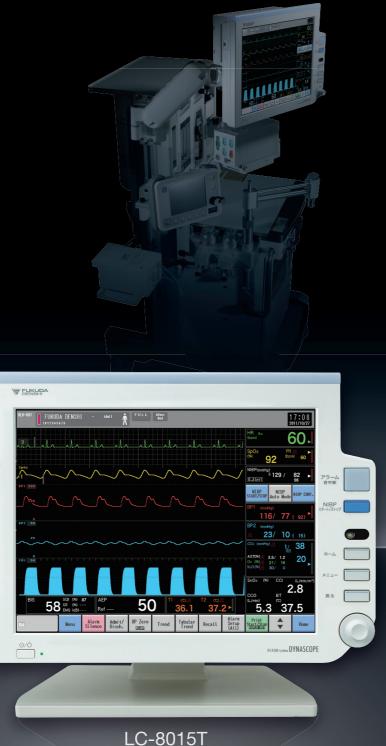

134 93

> A new intelligent interface that gives new meaning to patient monitor clarity. This is the patient monitor reimagined, comprehensive data with total control at your figure tips.

134 93 16 36.1 37.2

Seamless integration within any patient care situation

Clear and compact, the 15" display configured to deliver in space restricted critical care and anesthesia environments.

LC-8019T

Vivid and expansive, the 19" display designed for the demands of modern critical care. Unlike any other monitor the DS-8500 allows complete flexibility and customisation enabling adaption to exactly fit your individual patient care environment.

*Bespoke installation and mounting options available.

Modular architecture delivering all the parameters you need

Modular design complements the flexibility of configuration. Select the required parameters and configure the ideal layout. Collect and view all patient data at bedside or central station, seamless patient record from monitor to monitor via HS-8000 super module.

Designed to meet the needs of the modern critical care service from OR, ICU, CCU to the HDU, PSU and ER. Wide choice of direct patient connected parameters with the added power of device Interface to bring all your data into one totally configurable display.

New Secure Connect cable system

Introducing a brand new cable connector design. The Secure Connect ensures positive cable/module interface locked in place with push button release.

1. Configuration				
Main Unit configuration				
DSC-8510		Main Unit		
DSC-8530		Main Unit		
		*DSC-8530 has Multi display and TCP/IP		
Display Unit				
LC-8019T 19 inch Displa		зу		
LC-8015T 15 inch Display				
Super Unit				
HS-8312M	Super Unit	ECG (12 lead), RR, NIBP, SpO₂,		
HS-8312N		Multi-Amp (IBP, TEMP, CO)x3,		
		Analog Output (ECG, IBP x2)		
		<pre>%M=MASIMO N=NELLCOR</pre>		
Gas Unit				
HPD-800	Gas Unit I/F	ETCO₂(Mainstream)		
HCP-800	CO₂ Gas Unit	ETCO₂(Sidestream)		
Extension Unit				
MGU-800 Series	Gas module	CO₂/N₂O Agent, O₂ and Spiro (a wildele depending on the model time)		
HR-800	Printer unit	(available depending on the model type) 50 mm wide printer (roll paper)		
Extension N	lodule			
HM-800	Multi Module	Multi Amp(IBP,TEMP,CO)×2		
HP-800	Multiport Module	External equipment connector 2ch, Analog Output		
HG-810/820	SpO₂ Module	Extra SpO ₂ , PR and SpCO, SpMET (810 only)		
810 Only) 810=MASIMO (SpCO and SpMET are optional) 820=NELLCOR				
Others				
IB-8004		Input box with 4 slots		
HSA-80		HS-8000 adapter		
CF-820		Remote control		
0P050-01T	DR	Roll paper 50mm		
HLX-801		Telemetry transmitter		

2. Specification

Waveforms	ECG/RR/SpO₂/IBP/CO	2/O2/AG		
Parameters	Basic configuration (Only HS module) HR/ST/Arrhythmia SpO2/PR			
		Cuff pressurization, PR)		
	Multi Module: (IBP x 2, T			
		R) Maximum 6 channels		
	CO 1 channel			
	TEMP Maximum 6 chan	nels		
	Maximum configuration (HS+IB-8004 x 2)			
	HR/ST/Arrhythmia			
	SpO₂/PR			
		Cuff pressurization, PR)		
	Multi Module: (IBP x 2, T			
		R) Maximum 8 channels		
	CO 1 channel			
	TEMP Maximum 8 cha			
		, InspCO₂, N₂O (Insp/Exp),		
	O₂ (Insp/Exp), AG (Insp/Ex	(p), PR) and apneic period
